

Instruction Manual

Key Features

1. **Painless Trimming & Safe Design**

- Rounded arched cutter head fits the nasal contour, preventing skin or nasal membrane irritation.
- Upgraded obsidian silver-coated material ensures gentle contact and zero damage.

2. **High-Performance Motor**

- 8000 RPM high-speed motor with strong torque for precise trimming, eliminating pulling or discomfort.

3. **Intelligent Safety Technology**

- Pre-set safe blade distance automatically trims nose hair to an ideal length without over-cutting.
- Dual-action blades deliver 100% clean and refreshing results, breaking traditional shaving patterns.

4. **Enhanced User Experience**

- 3D detachable cutter head for easy rinsing, ensuring hygiene with no residue.
- Long battery life with USB smart charging (Type-C port); 1-hour charge supports ~30 days of use.

5. **Portable & User-Friendly**

- Compact size (9cm x 3.1cm), lightweight, and travel-friendly.
- One-touch operation with digital power display for real-time battery monitoring.

Technical Specifications

Dimensions	9cm (L) x 3.1cm (W)
Charging	Type-C port (compatible with PC, power bank, car USB)
Charging Time	~1 hour
Battery Life	~30 days (standby)
Motor Speed	8000 RPM
Cutter Head	Detachable dual-blade (arched design)

Usage Instructions

1. **First Use**

Fully charge until the indicator light turns solid.

2. **Trimming**

- Press the power button and gently insert the cutter head into the nostril.
- Rotate slowly to allow the blades to trim hair effortlessly.
- Avoid excessive pressure; let the motor do the work.

3. **Cleaning**

- Detach the cutter head and rinse under water. Air-dry thoroughly.
- Regularly check for trapped hairs to maintain performance.

Precautions

- Do not charge in humid environments.
- Handle with care to avoid blade damage.
- Keep away from children; store in a cool, dry place.

Ideal For

Men seeking refined grooming, frequent travelers, or professionals needing quick and safe nose hair maintenance

Brand Philosophy

**"New Style for Refined Men" — Merging technology and aesthetics for efficient, safe, and portable personal care.
