

instructions

Note: This product does not include speakers and cannot make sound.

1. Built-in high-capacity lithium battery, It lasts about 8 hours on a full charge.
2. The audio is input by the pickup method, which can be used without wired access/wireless link.
3. Short press the power button (1 second) to power on, long press the power button (3 seconds) to power off.
4. Power indicator:
 - Blue: normal use
 - Blinking blue: low battery
 - Red and blue: charging (need to insert TYPE-C charging cable)
 - Red: charging (off state)
5. When the ferrofluid is granular, absorb it manually using the included magnet attachment to agglomeration it.
6. The ferrofluid will show agglomeration, disperse, suspending, sinking and other states with different music/sounds. These are the physical properties of ferrofluid bodies, not a quality issue.
7. It is forbidden to use it in high temperature and sun exposure environment. High temperature (such as inside a car) and sun exposure environment will cause the liquid to expand and cause the glass bottle to burst. Product damage caused by high temperature, sun exposure, and external impact will not be after-sales service.
8. Part of the material components of the ferrofluid of the product are: pure water, mineral oil, and nano-iron powder, all of which are non-toxic and harmless.
